Consumer Electronics 2014

INTELLIGENT SOLUTIONS

LOOKING FOR NEW PROFIT GENERATING PRODUCT?

Vivanco continues to maximise the accessory potential for all its trade partners - with more class leading accessory ranges to compliment the latest hardware. Consumer-orientated packaging creates readily shoppable displays within personalised concepts both in-store and on-line, to enhance the consumer experience.

Our increasing e-marketing activity takes our consumer focus & category management to completely new levels. Our European new product development/marketing department is backed by a significant German based QC team - which gives our customers the confidence they need. On top of this, our new Far East structure has given us much greater sourcing & manufacturing access to new technologies.

All of this, combined with our flexibility and customer focus makes Vivanco the right partner for technology accessory solutions.

T Series - Curved structure TV rack black

The beautiful long and low design of the T Series is perfectly suited to the larger screens available on the market today. The stunning high gloss piano black finish is applied to the single piece, curved wood structure to make the T Series a design driven statement piece that stands out among other stands available today.

Capable of supporting a wide range of screens and with ample space for AV equipment, the T Series combines the functionality of a traditional AV rack while fitting beautifully into any living environment.

- High quality manufacturing
- Curved structure with high gloss finish
- W 120 cm x H 38,4 cm x D 38,5 cm

TV Furniture

R Series - Stylish TV rack black

This contemporary twist on the classic, open rack design offers a soft, stylish approach to AV support furniture. The stunning gloss black glass is paired with matt black legs to give an exceptional finish that will complement the latest designs for Plasma and LCD Televisions. The all curved design provides a subtlety that is often missing from traditional stands, and with the ability to hold up to 6 pieces of equipment, with integrated cable management and a high-strength frame, the R Series has outstanding functionality.

- High quality manufacturing
- Integrated cable management
- High-strength frame
- Holds up to 6 pieces of equipment
- W 80 cm x H 50,4 cm x D 45 cm

Innovative concept for DVB-T antennas

Vivanco presents a new innovative concept for DVB-T antennas. Apart from performance and design, the main focus is on the actual real-life usage.

The new guidance system facilitates the search for the antenna which best suits a consumer's requirements, allowing anybody to find the product most suitable for them easily and quickly.

The answer to the question: which is the right antenna?

Good / Better / Best

Vivanco antennas are categorised in the three ranges Good, Better, and Best. This categorisation also refers to the reception quality. The farther away from the transmission tower, the better the quality of the antenna should be.

Best
– Very high reception quality, top amplification, premium accessories kit
→ Optimal for operation in areas with poor reception

Better
– High reception quality, high amplification, basic accessories kit
→ For operation in areas with average to good reception

Good
– Good reception quality with good amplification characteristics
→ Optimal for areas with good reception

The segments

The product range is divided into four basic application ranges: Indoor, PC, Car/Truck and Outdoor. Vivanco's DVB-T antennas were specially optimised for these areas of application.

Indoor
– For indoor use such as in rooms or flats

PC
– Specially optimised for use with PCs and for mobile application with notebooks
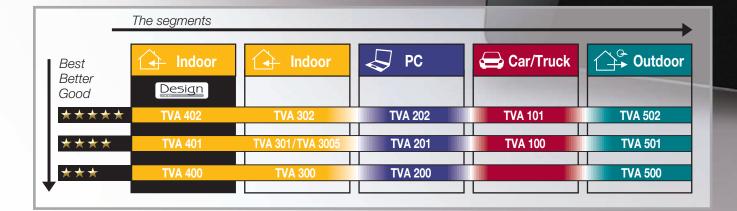

Car/Truck
– For use on a 12 V onboard network of cars, trucks or caravans

Outdoor
– For outdoor use, for example for installation on house walls or on cara vans

The segments

Best Better Good	Indoor	Indoor	PC	Car/Truck	Outdoor
	Design				
★★★★★	TVA 402	TVA 302	TVA 202	TVA 101	TVA 502
★★★★	TVA 401	TVA 301 / TVA 3005	TVA 201	TVA 100	TVA 501
★★★	TVA 400	TVA 300	TVA 200		TVA 500

Design down to the finest details!

The Vivanco Design line combines aesthetics and function in extraordinary products. The subtle understatement, the clear lines and the above-average performance make these products something special.

Indoor

Full HD indoor antenna

- Full HD TV reception, DVB-T and DVB-T2, DAB radio
- The most innovating 48dB amplification technology for an optimal amplification of terrestrial TV signals
- Auto-gain control - automatic setting of the best amplification factor
- Active low-noise technology for extremely clear reception
- Multi-direction 360° system increases reception capacities
- Highest level of flexibility: positioning or wall assembly possible
- Eco-Switch: OFF instead of only STANDBY, save power by switch-on and switch-off
- Current supply by power supply, USB connection or DVB-T receiver
- UHF, VHF

Digital TV on your computer!

You can watch high-quality DVB-T television, not only on your stationary home PC but also on your notebook PC during mobile usage. Due to their extremely compact design and optimisation for mobile reception, the PC antennas are your perfect companion when you are travelling. When connected to your DVB-T stick or the TV card, the antennas provide an excellent television signal.

A STRONG BRAND

The aircoustic brand symbolises an entirely new, customer-oriented approach to sell headphones. The "Application-matched segmentation" concept directly addresses the requirements of the final customers, thus allowing for a fast and optimal decision to buy.

Tried and tested features:

Segmentation by application

For this reason, we segment the aircoustic product line by application rather than by type or design. This lets the customer find the right headphones for his intended application very quickly.

Decision guidance and fast orientation

The concept for the aircoustic product line indicates the relevant applications and so actively supports the customer in his decision to buy. The colour coding system helps with orientation.

Comprehensive solution

aircoustic is the comprehensive solution for headphones. We ensure a uniform and attractive shelf presentation minimising the expenses for customer counselling while continuously updating and gearing the product range towards the latest trends.

The 4 segments:

aircoustic

MP3 headphones

Metal jacket design - ultralight design in earphones

The housings are made of high grade aluminium and are both lightweight and solid at the same time. As well as the Pitch black version, the iSR110 is also available in three on trend colours as well: Mocha brown, Sweet violet and Burnt orange. The matt finished paint, the high grade materials and the perfect manufacture provide a true quality appearance. And the sound inspires as well: The complete acoustic spectrum is reproduced in a totally clear and balanced way. Prolonged listening with the iSR110 gives incredible pleasure. The crisp bass, clear highs and clean midrange meet all needs. Due to the lightweight housing the wearing comfort is high and the silicone ear pads in three different sizes allow the fit to be optimised individually.

- High quality aluminium housing
- Excellent sound quality
- 4 trendy colours
- Frequency: 18Hz – 22.000Hz
- Sensitivity: 99dB
- Impedance: 16Ohm
- Cord length: 1.2m
- Plug: brown violet orange 3.5mm golden

Camcorder and DSLR

Basic Black camcorder/camera case

Robust case for all occasions. Tasteful styling and high-quality workmanship are the trademark features of this line. Robust material and stable upholstery provide the best possible protection for the camera and accessories and make the basic black models an indispensible companion in all situations.

- Material: nylon
- Water-resistant top material in black with blue piping
- The main compartment is closed with a practical double zipper
- The cover net compartment, front compartment with organisational partitioning, front and side net pockets provide space for many accessories
- High-grade upholstery
- Light-coloured flannel inner lining to help find accessories inside the case
- Adjustable interior partitioning
- Removable shoulder strap and belt loop for different carrying options
- Cleanable bottom

Available in four sizes:
Size I   – Inner dimension main compartment approx 10 x 14 x 8 cm
Size II – Inner dimension main compartment approx 13 x 12 x 6 cm
Size III – Inner dimension main compartment approx 17 x 12 x 9 cm
Size IV – DSLR*-Tasche „Colt", Inner dimension main compartment
              approx 17 x 19 x 12,5 cm

VIVANCO

The customer is the focus

Power units are everyday items, but hardly anyone knows the technical specifications of these commonplace products.
Anyone who wants to replace a lost or defective power unit is faced with a difficult choice.
The dealers' shelves are full of countless models with a multitude of different plugs.
The new Vivanco power unit range, therefore follows a completely new logic, which starts with the APPLICATION of the product.

With the aid of this simple classification, it is easy to find the correct power unit on the shelf:

PAH 1	PAH 2 PAH 6 MFI PAH 6	PAH 3	PAH 4 PAH 5
CPA 1	CPA 2 MFI CPA 5 MFI CPA 6		CPA 4

The range is divided into 4 DEVICE CLASSES:

Small electronic devices: portable audio devices such as radios, discman/walkman, active loudspeakers as well as pocket calculators, Babyfones, kitchen scales

iPad, iPhone & iPod / smartphones / mobil phones / MP3 player

Cameras / portable navigation devices

Portable computers: laptops, netbooks

In addition, the power units are classified according to WHERE THEY ARE USED:

at home   in the car

For electronic appliances

AC/DC power adapter for electronic appliances

- Compact and light weighing
- For worldwide use
- GS, CE
- Input: 100–240V~ / 60/50Hz / 0.25A max.
- Max. output power/current: 12W / 1000mA max.
- Stand-by power: < 0.3W*
- Efficiency: max. 75%*
- Output voltages: 3.0 / 4.5 / 5.0 / 6.0 / 7.5 / 9.0 / 12V ; max. 12VA
- Output plugs: 2.5mm / 3.5mm / 5.0 x 2.1mm / 5.5 x 2.5mm / 3.5 x 1.35mm / 4.0 x 1.7mm / 5.5 x 1.5mm / 2.35 x 0.75mm

EDP-No. 31141

ctn qty. 50 / black

Multi travel adapter

The compact TRAVEL adaptor is the perfect companion for travelling! Thanks to its space saving design it can be stored in any luggage and can be used for adapting many common plug norms. Different inputs and switchable outputs offer highest flexibility choosing the correct adaptor!

- UK, Ireland, Hongkong and other countries with 3-pin UK plug
- Australia, New Zealand and other countries with 2-pin "Aussie" plug
- USA, Canada, Mexico and other countries with 2-pin US plug
- Many European countries with 2-pin Euro plug
- 110V input: max. 275W power consumption
- 230V input: max. 575W power consumption
- Only for indoor use (IP20)
- 2.5A fuse, exchangeable

This adaptor is built according to applicable European laws and can therefore only be used for unearthed devices (protection class II). It is NOT ALLOWED that adaptors like this can be used with plugs that have a ground pin (e.g. Schuko, Swiss or Italian 3-pin plugs). Note: This product does not transform voltages or frequencies. (Input voltage = output voltage).
